Subject: Request For Sponsorship – UDAAN (Medical Facilities to Underprivileged Children)

Respected Sir/Madam

Diya India envisions a country that shines with prosperity. It is a ray of hope for the less fortunate by providing education, healthcare, life support and community development. Diya India Foundation is working under the guidance Padma Shri Prof (Dr.) S.C. Manchanda, Sr. Consultant Cardiologist, Sir Ganga Ram Hospital and Former Head of Cardiology AIIMS.

The mortality rate among children in India has always been a point of concern. We are supporting underprivileged children (age group up to 14yrs) who suffer from chronic diseases like cancer, heart ailments etc. We take care of complete medical expenses of underprivileged children by providing financial support for the costly surgical procedures and the medicines required for their full recovery, which they cannot afford.

We have been able to save several young lives till date. The joy of curing children who were suffering from various ailments keeps us going. This noble initiative is one of the great success stories of Diya India Foundation. We would like to expand this initiative and save many more innocent young lives in the future.

To expand our program we request you to support our project Udaan so that we carry forward our ambitious project to make our country a better place.

We shall be grateful, if you could consider the transformation on this noble dream into a reality. We seek your kind patronage and appeal for your generous support for this cause.

"Health isn't a goal. It's a way of living."

Donations to Diya India Foundation are exempted from Income Tax u/s 80G of I.T. Act, 1961

Your Sincerely
With Best Regards

For Diya India Foundation
