PLEASE HELP

Abujar 2 Years

When I married my wife 3 years back, all we wanted was to start a family. When I found out my wife was pregnant, I couldn't believe my luck. The arrival of our son brought back purpose to our lives.

We promised to give our son the best we could afford. Unfortunately, after giving birth my wife expired. I was shattered totally, and my life became blank. I don't know what to do.

I have to leave my job so that I can take care of my son.

Few days ago, I noticed that my son was having trouble in breathing and gasping for air. Panicked, I rushed him to the hospital as soon as possible. At first, even the doctors couldn't figure out what the problem is. They asked me to take him to the bigger hospital, and so I came to Paras Hospital. After doing the test, they informed me that my child had a life-threatening hole in his heart and urgently needed surgery to save his life. The cost of the surgery is 2,50,000/-

I don't have that much money as I have no job, but with my friends help, I have arranged only 25,000/-. I cant arrange more.

Every time I look at my son now, my heart is full of sorrow. My baby is my only source of happiness. I don't even dare to sleep now for fear of losing my child.

Please help me save my little boy. His life has barely begun, he doesn't deserve to be snatched away so soon.
