Subject: Support for Baby Parisha (129921)

Dear Sir/Ma'am,

This letter is regarding **Baby Parisha (129921)**, a Three-month-old female child, who is diagnosed with **TGA with VSD** and is required to undergo an **Arterial Switch Operation with VSD Closure** as soon as possible.

The **estimated cost of the procedure would be Rs. 3,50,000/-**.

Considering that her family is from a poor background and lacks the financial resources to fund the surgery, **we request that the Diya India Foundation and its supporters extend their support** for financial assistance to save her life.

With regards,

Shivang Saxena

*My Little Parisha
battling between life and death.
We need your Support to
Save Her.*

PLEASE HELP

Parisha (3 Months)

Me and my husband prayed for the child and our prayers were finally answered 3 months ago we were blessed with a little angel. We named her Parisha.

However, now, my little baby is battling between life and death. Her heart is failing.

It all started two months back- the constant wailing, the swelling on her chest not eating anything and crying continuously. We poured in every bit of our savings to get her tests done. We just wanted to be sure that everything is fine with her. But our lives turned upside down when she was diagnosed with hole in the heart.

Since then, we are just helplessly watching her suffer.

Her disease has made her so weak. She just keeps crying in discomfort. Because of her constant crying, she runs short of breath and starts gasping for air.

The doctors have told us that the only thing that can take her out from the holds of her fatal disease is an emergency heart surgery (Arterial Switch Operation with VSD closure) which will cost INR 3,50,000.00. There is no possible way from which we can arrange such a huge sum.

My husband is working in a factory as a helper and earns only 12,000/- per month. I am a housewife. We cant arrange so much of amount.

We have tried every possible thing. We have asked for help from our friends, relatives and almost everyone we know. Somehow we have been able to arrange Rs. 1.25 lacs.

This is our last hope. Only your help can save our child. We won't be able to forgive ourselves if something happens to her. Without urgent surgery, her heart will stop beating.

Please Support.

We will be forever indebted to Diya India Foundation and its supporters for their help and for giving a new life to our baby girl.
