Priyansh

4 Years

My Son Priyansh is just 4 Years old.

He is diagnosed with sever COA, LVH+ good ventricular function which causes him inconvenience.

Doctor's at Paras Hospital, Gurugram told us that he needs COA ballon dilatation to save his life and the cost of surgery is Rs. 2,00,000/-.

We have gone above and beyond to arrange funds but could not arrange the surgery amount. With the help from my parents we have been able to arrange Rs. 50,000 and still short of Rs.1,50,000/-. It is not possible for us to arrange the balance amount.

I request Diya India and it's supporters to help us and save my son's life.

Please give him a second chance at life.

We will be forever indebted to your Kindness.

Your act of Kindness means a new life for Priyansh.
