## Shivang (6 Months)

Only Open-Heart Surgery can save my only child. He is only 6 months old. When shivang was born our world lit up. He is our first and only child.

Two months ago, he suffered severe breathlessness and cough following which we took him to a local paediatrician, who diagnosed abnormal sounds from the heart. The doctors referred us to Delhi. We came to Fortis Hospital, after thorough evaluation baby was diagnosed with heart problem.

After hearing this news, me & my wife were completely broken. Its hard to accept that our baby is suffering from heart disease and needs surgery to save his life. Doctors also told us that cost of the surgery will be around Rs. 2,70,000/-

My wife is a Housewife and I am working in a shop earning Rs 8000/-per month. We have no means to arrange this heavy cost of surgery.

I am begging Diya India Foundation and its kind supporter from the depths of my soul, to please help save my son. Help us with your kindness. Help us with your humanity.

**Please Help us save Shivang**
