Our Child.

Taqi Ali Khan (4 Years)

Four-year-old Taqi khan should be spending his days laughing and playing but he is fighting a battle he never chose, a congenital medical condition which requires urgent surgery of Tetralogy of Fallot and the cost of the surgery is 2,70,000/-.

Father is a electrician working tirelessly. He is the only earning member in the family. Despite his efforts the cost of his son's surgery is far beyond he can afford.

Taqi parents watch helplessly, carrying the pain no parent should have to endure knowing their child can be saved, but not having the means to do so. But your blessings and generosity can change everything

With your kindness you can save Taqi's life.
