

Embrace Good Health

23<sup>rd</sup> May 2023

To,

Diya India Foundation

Subject: Support for Mohammed Adam

Dear Ma'am/Sir,

This letter is regarding Mohammed Adam, DOB – 18/12/2022, male child who was diagnosed with to have complex congenital heart disease and to undergo Single Valve Repair surgery. The estimated cost of the procedure is Rs.2,42,000/- (including 4 days in ICU and 8 days in ward).

The expected date of admission is 19<sup>th</sup> June 2023.

Considering that the family is from a poor background and lack the resources to fund the surgery, we request Diya India Foundation and its supporters to extend their support for financial assistance.

With regards,

Dr S Radhakrishnan

only child.*

## **Mohd Adam**

### **5 Months**

This is a story of a Father whose wife is suffering from Cancer but stood against all odds to give his son a life he deserves. He used to make Pashmina Shawls as an income but some years ago he got a spine injury and now he cannot sit for long.

Parents have no financial source of income. They have a son named Mohd Adam (5 months). One day parents noticed Baby Adam having breathing problems. They took him to the doctor for a checkup. The doctor said to do an echocardiogram test. After doing the test, the doctor said Baby Adam is having Congenital Heart Disease. He needs urgent heart surgery to save his life and the cost of the surgery is 2,42,000/-. This broke the parent's heart as they cannot afford for their son's medical treatment.

This is their last resort, last hope. They won't be able to live if something happens to their child. They request Diya India and its supporters to help them and save their only child.

**Without your help they will not be able to save him.**
